

Dear Parent:

Thank you for your consent to the screening, and for your child's recent participation in the mental Wellness Screening. We appreciate your cooperation with our goal to help identify any problems, early!

This letter serves to inform you that your child's responses scored within the "normal" range, and no response is recommended at this time. You may, of course, seek advice from your child's doctor or a behavioral health provider as any future needs are indicated.

Please contact your child's school staff or Julianne Morrison at Kettle Moraine Counseling with any questions.

Sincerely,

Wellness Screen Staff
